About the College

Government College Malappuram came into existence in June 1972 as a Junior College in response to pressing demand of the public for an institution providing University education to the younger generation of Malappuram and its suburbs.

The College was upgraded as a degree college during academic year 1973-74. At present the college has ten departments with six having PG Courses and two having research centre.

About the Department

PG department Commerce was started in the year 1972. The department offers B.Com and M.Com in finance stream. The department is well equipped with audio visual aids, backed up with good faculty input. The department conducts various workshops and seminars every year in diverse areas.

About the Workshop

The aim of the workshop is to bring together researchers and doctoral students who are working on financial data and want to employ Econometric data model in their research. This work shop would provide hands on experience for the in depth understanding of these techniques and application to finance. The participants will get a good training on the theory of these models as well as their applications through software packages. This work shop will be conducted in a highly interactive manner, with greater emphasis on giving participants hands-on experience in handling, analyzing and interpreting different data sets for modeling and forecasting.
